

SHOWCAVE

EUROCAVE
PROFESSIONAL

EuroCave Professional is the world's leading wine storage and service brand for hotels, restaurants, wine merchants and wineries, our historical partners.

All of the brand's products combine recognized technical expertise and ergonomics specifically optimised for professionals.

EuroCave Professional,
the difference.

The ultimate display
for your wine.

Showcase
your best bottles.

Your bottles will not go unnoticed with ShowCave, the wine display cabinet which combines storage performance and the art of presentation.

SHOWCAVE

Enhance *Protect*

The LEDs placed along the walls diffuse amber lighting to skilfully display your bottles, without harming your wine.

The reflective internal walls amplify the light and create depth and perspective. The design and reflective effects catch the eye.

High-impact display *for your wine*

ShowCave is a single temperature wine display cabinet which can be set from 6 - 20°C, to bring your champagne, white or red wine to the perfect serving temperature.

Mounted on storage or display rods, the patented "*Main du Sommelier*" (sommelier's hand), bottle support, holds all bottle sizes and protects your wine from vibration for optimal storage.

Fits in *adapts*

An alternative to tailor-made, ShowCave allows you to create your own wine wall, with no compromise on storage performance.

Flush-fitting wine display cabinet with shallow depth*, available with 1 or 2 doors, it fits in perfectly in any environment. You can customise its covering or fit it inside a dedicated unit.

Many combinations are possible, allowing you to create a unique ambiance for your establishment and choose the temperatures most suited to your wine list.

2 temperatures
2 x 1 doors
180 bottles
1.40 m of display area**

3 temperatures
3 x 1 doors
270 bottles
2.10 m of display area**

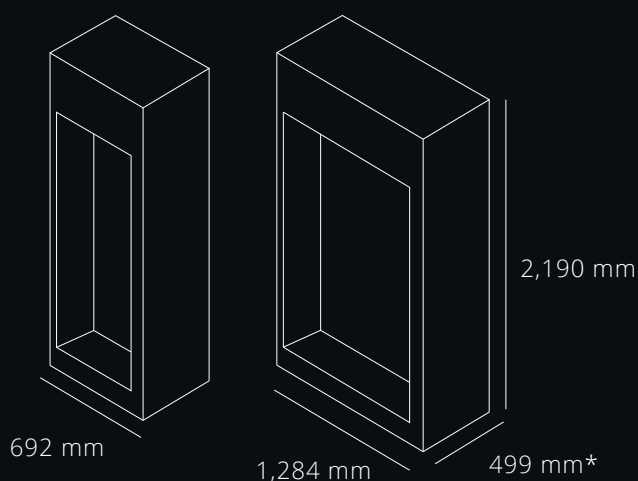

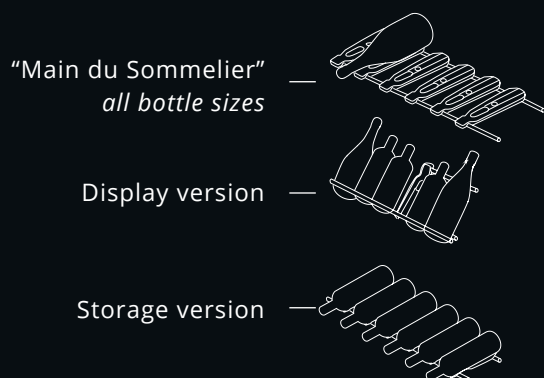

2 temperatures
2 x 2 doors
360 bottles
2.60 m of display area**

2 temperatures
1 x 2 doors + 1 x 1 door
270 bottles
2.00 m of display area**

* A single depth (499 mm) – A single row of bottles – thanks to the high position of its refrigerating unit.
** Dimensions in the case of cabinets side by side, not flush-fitted.
